Halton & St Helens Wheelchair Service

Community transport services information for the Halton and St Helens areas

What are community transport services?

Community transport services provide safe, accessible and affordable transport solutions to their local community, which enable people to access work, training and social activities they might not otherwise be able to get to or do.

Most schemes offer a door-to-door service, including dial-a-ride, shopping trips, medical appointments, day trips, outings and group hire.

Dial-a-ride journeys typically operate fully accessible mini-buses, which are suitable for most modern wheelchairs.

Fares are generally set based on the length of the journey and are agreed with the operator in advance. A local dial-a-ride or shopping trip generally costs the same as local bus fares.

Schemes may set their own conditions for who can be carried, according to local priorities.

Taxi companies with disabled access vehicles

There are many licensed taxi companies and private hire vehicles available within the area. They can be found in the 'Thomson Local' directory or online.

Most local taxi companies will have a fully accessible vehicle that is suitable for modern wheelchairs.

Please check with your chosen taxi company before booking.

Halton and St Helens area

Halton community transport

Dial-a-Ride operates Monday to Saturday. They provide a daily wheelchair-accessible minibus service within the boundaries of Halton. It is available to residents of Halton who find it difficult to use public transport because of mobility problems.

Pick-ups are from door to door.
Hours of operation: 9am to 4.45pm.
