

# Apprenticeships Case Study

**Stefanie Carruthers**

Registered Nursing  
Apprenticeship Talent Pool

**What prompted you to become an apprentice/apply for your apprenticeship?**

As a Healthcare Support Worker apprentice with Bridgewater who was coming to the end of my apprenticeship, I was notified and encouraged to apply for the degree nurse apprenticeship opportunities when they became available.

I have always wanted to be a nurse but as a single parent struggled to find a way, I could make that possible financially. With the apprenticeship, I can become a nurse and support my family.

**Tell us about your role, what does a typical day look like?**

As an apprentice degree nurse my role can differ depending on if I am at university attending lecturers or on placement or back working with Bridgewater.

**What is the best thing about your apprenticeship?**

Working as an employee of Bridgewater and being surrounded by so many supportive people that want you to succeed.

**What would you say to others thinking about an apprenticeship?**

To go for it. You will get to where you want to be in your career, you'll be fully supported by everyone and get to continue to earn a salary at the same time.
